

Subjects Offered

Junior High School

In Junior High School, you will study a broad range of subjects, both academic and recreational. These school years are a really good time to work out which subjects interest you, and which subjects you would like to study more in the future.

In Years 7 and 8 you will study a range of compulsory subjects, including the core subjects Maths, Science, English and Humanities, as well as recreational subjects

such as Physical Education, Art, Computing, and Design and Technology.

In Years 9 and 10 you will continue to study the compulsory core subjects – Maths, Science, English and Humanities – but you will get to select which other subjects you would like to study. For example, you may have a strong interest in Science and Computing, so you may elect to study Computing and Extended Science.

Learning area	Sample Subjects	
English	<ul style="list-style-type: none"> English 1 English 2 English 3 	<ul style="list-style-type: none"> English Writing English Literature
Mathematics*	<ul style="list-style-type: none"> Mathematics for Life Maths 1 Maths 2 	<ul style="list-style-type: none"> Maths 3 Maths 4 Maths Methods
